

BANSHEE

Ex Isolator S3

PRODUCT CODE
BXIS400

The Banshee Ex Isolator S3 is an explosion-proof switch that provides users with a safe and reliable method for isolating electrical circuits or equipment. Designed specifically for use in hazardous industries such as petrochemicals, refineries, and mining, this specialized switch features a flameproof enclosure that houses an isolator switch, enabling operators to disconnect power quickly and effectively. Additionally, operators can lock the switch in the ON or OFF position, ensuring adherence to safety protocols and lock-out procedures. Manufactured from high-grade mild steel, the unit's electroplated parts enhance corrosion resistance, making it suitable for demanding environments. The isolator also features one M20 gland entry and two M25 gland entries, providing versatile installation options while maintaining safety and compliance.

NOTE: The IECEX, ATEX and UKEX certification is ONLY Certified for Underground Application

OUR PRODUCTS CARRY A 5 YEAR WARRANTY

SPECIFICATIONS

VOLTAGE	415VAC/DC
CURRENT CONSUMPTION	25A
CLASSIFICATION	Ex db I Mb Ex db IIB + H2 T4 Gb (RSA Only)
CERTIFICATION	MASC MS/18-2264U MASC MS/18-2265X IECEX ICS 22.0020X MASC M/23-9006X IECEX ICS 22.0023U MASC M/23-9009U CML 24ATEX1190X CML 24ATEX1193U CML24UKEX1197X CML 24UKEX1200U
ZONES	1 & 2
GAS GROUPS	I, IIA, IIB
IGNITION GROUP	T4 - 135°C
IP RATING	IP54
WEIGHT	9.5kg
PACKING DIMENSIONS	230 x 160 x 230mm
